THIS MONTH WE LEARNED ABOUT...

Here is our update of October 2019! We have celebrated one of student's birthday and Halloween is coming!

We are continuing to learn about calculating and budgeting cost. In addition to that, we are learning our arithmetic (i.e. adding, subtracting, and using measurements). They are doing surveys and make a chart to visually see their results.

We have learned the geography Japan and the history of the Japanese Emperor. We read in groups and test our knowledge and skills.

We use our computers to research and find important news headlines from abc7.com. The research continues as the students use

google maps to find a location and write the miles and how long it takes to walk, drive, and use a public transportation.

With Ms. Joann and student wearing the same shirt.

For English Language Arts, we started reading *Treasure Island* by Robert Louis Stevenson. We are reading each chapter a week, learning new vocabulary terms, understand

story lines (i.e. character, plot, sequence, and reading comprehension). We are engaged with what will happen to Jim Hawkings and if he will find the treasure!

As the holidays are coming, we are decorating our classroom with Halloween art and making Halloween food. We will continue learning about our holiday as we are closing the 2019 year.

As we continue our year, we are still going to the grocery store to buy our groceries. Later we will visit and learn new communities.

Let's continue to learn about grow together throughout our high school career! Happy October!

NEXT MONTH WE WILL LEARN ABOUT...

We will continue reading a novel called *Treasure Island* by Robert Louis Stevenson.

We will continue to learn about our budgeting, history and geography in America, learning about our emotional and intellectual health, the

solar system, and art through textiles.

We will also learn about the history of Thanksgiving and Veterans Day through the News 2 You.

Our students will continue to participate in our weekly grocery shopping and work as a class to prepare a weekly menu, grocery list, and how to budget. We are ready for November!
